SLIDE DESIGN	NOTES
1. Each slide was titled with a meaningful heading.	
2. One point was presented on each slide.	
3. Where possible, visuals were used to illustrate complex concepts, methods, or data.	
4. Visuals were "cleaned up" to illustrate the main point, and appropriately labeled.	
5. Slides were not distracting (animations, busy or unnecessary visuals, jarring colors, too many words on a slide).	

OVERALL	NOTES
1. As a member of the audience, could you leave and tell someone else the main question and results of the research?
